## DETAILED ACTION

### *Election/Restrictions*

1. Claims 19 – 70 and 80 – 95 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 9/15/04.

### *Double Patenting*

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 1-18 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-17 of U.S. Patent No. 6,322,888 to Levy et al. Although the conflicting claims are not identical, they are not patentably distinct from each other because both sets of claims include all of the same structural limitations of the device in Figures 1-19.

***Claim Objections***

3. Claims 73 to 74 are objected to because of the following informalities:
- a. the word "groove" is misspelled in line 2 of claim 73
  - b. the word "second" needs to be inserted before the word "guide" in line 1 of claim 74.

Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1,5,6,10, 11,16, and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent No. 5,925,064 to Meyers et al.

Meyers discloses a finger-guided surgical instrument in Figure 2 that has a "thimble-like element" (20) and an ejectable tool (30) connected to the wall of the thimble-like element. The element (20) is configured to expose the tip of the finger, as best illustrated in Figure 5. In another embodiment of the device, a thimble-like element (Figure 12) that exposes a portion of the finger holds a tool. This element (62) can be connected to various ejectable tools, such as graspers (70) (Figure 18A), a scalpel (80) (Figures 24-29), or scissors (140) (Figure 37). These tools are ejected along a longitudinal axis. Meyers also states that the thimble-like element can engage an optical head (column 15, lines 35-57).

***Allowable Subject Matter***

5. Claims 71 – 79 are allowed. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
